mbietuko@udel.edu  
2023862167

Dedicated and highly motivated computer science student with a strong passion for Software Development and Front-End design with a solid foundation in programming languages such as Python, Typescript, SQL. A quick learner with excellent communication skills and eager to apply my knowledge in a dynamic team environment to contribute towards innovative projects and gain hands-on experience in the field.

---

## Professional Experience

### Team Member

#### Chick Fil A

##### January 2021 - Present

- I assisted with training new team members as needed and performed other duties assigned by my managers.
  - I ensured that all customers received exceptional service by maintaining a positive attitude with a huge smile on my face.
  - I successfully resolved customer complaints and problems both in person and via telephone.
  - I Followed all company policies regarding food handling, cleanliness and safety.
-

#### University of Delaware, Newark, DE

##### September 2019 - Present

---

## Key Skills

- HTML
- CSS
- Python
- Database Management
- Data Structures
- Excellent Communication Skills
- Team Work
- JavaScript
- TypeScript
- C++
- SQL

---

## Projects

### Introduction to Software Engineering | February 2023 - May 2023

My group mates and I made a soccer themed web game using mostly Typescript, HTML, CSS and React Library for our final class project, which is currently published on Github.

### Database Systems | February 2023 - May 2023

I created Tables with objects, set Primary and foreign keys as provided on the project description

I created an insert & update trigger for columns in my table to automatically update columns

### **Advanced Web Technologies | August 2023**

I am currently working on my own online tournament platform which will display data read from a database dynamically.
